Please fill in the [Ecommerce Sign Up Form](#) and submit electronically.

### **\*\*CHROME USERS\*\*** - If you experience difficulties viewing the PDF Form

By default, Chrome uses a built-in PDF viewer to open PDFs. If you've disabled the built-in PDF viewer, Chrome will use Adobe Acrobat or Adobe Reader to display PDFs. You can also choose to make Adobe Acrobat or Adobe Reader your default PDF viewer in Chrome. Here's how:

Enter `chrome://plugins` into your address bar.

Find the Chrome PDF Viewer and click disable.

Scroll down to either Adobe Acrobat or Adobe Reader. (You'll only see them if you have them installed.)

Click the Enable link

Check Always Enable - so you don't have to do this for each PDF viewed

### **\*\*FIREFOX USERS\*\*** - If you experience difficulties viewing the PDF Form

Third-party PDF viewer plugins are available if you prefer not to use the built-in viewer.

To switch from the built-in PDF viewer to another PDF viewer:

Click the menu button New Fx Menu and choose Options.

Select the Applications panel.

Find Portable Document Format (PDF) in the list and click on it to select it.

Click on the drop-down arrow in the Action column for the above entry and select the PDF viewer you wish to use.
